2. The first representation of real governmental functions in the State of Deseret (including all of Utah, Nevada, and Arizona, together with portions of New Mexico, Colorado, Wyoming, and Southern California), being the earliest examples of type-setting and printing in this entire domain.
3. Part of the *earliest* Western issue of obsolete paper currency.
4. Among the *most* historically valuable issues of known Western paper.

Only 812 paper \$2 notes were issued by the Mormons beginning on January 1, 1849 and redeemed before May 20, 1850. Of these, 795 were of the printed variety (or Third Series). Of the 812 total, some 789 were redeemed and destroyed, leaving but 23 possible survivors of all three paper issues.

(For collectors seriously interested in all of the coins and currency of the Latter-Day Saints, together with the complete economic history of the Mormons, we can supply the three standard references on the series by Arrington.)

"China used paper money many centuries before the Occident"

PAPER MONEY OF CHINA

By

EDWARD KANN, A.N.A. No. 8550

The Genesis

IT IS NOT common knowledge that paper was invented in China in about 200 A.D. Neither is it generally known that among the numerous inventions of ancient Cathay was the regular use of paper money. Needless to emphasize this branch of economics was gradually developed so it is impossible to fix a certain year, or even a decade, for the innovation. The commencement of paper money in China is hidden in the dimness of time and often becomes the battleground for the controversies of specialists. One fact stands out with clarity, namely, that China used paper money many centuries before the Occident knew of its blessings and its curses.

The origin of fiat money is often ascribed to the T'ang dynasty (618-907 A.D.) in about the year 800. But actually, during the T'angs rule, there existed government issued drafts, calling for encashment in the diverse provinces in metallic bronze money. These negotiable instruments were styled in Chinese *fei-chien* (flying money), but they were not yet bank notes in the accepted sense.

Only during the rule of the T'ang's successor, the Sung dynasty (906-1278 A.D.), did paper notes originally redeemable against bronze coins, make their appearance. Overissues, due to internal warfare, brought about depreciation to a marked degree. The emission and circulation of such government-controlled notes was initiated by the Sung's shortly before 1000 A.D. By

that time sixteen private banks in Szechuen Province had obtained the right to issue fiat money, a privilege which was misapplied and which culminated in repudiations. The Sung notes were styled *djiau-dze*, (exchangeable money) a name which comparatively soon became an euphemism, for the paper had become irredeemable. Thereupon the Sung authorities issued another series, styled *quei-dze* (citadel money), but unfortunately overissues led not merely to depreciations, but to complete repudiation. Incidentally, this state of affairs brought about the downfall of the Sung dynasty. Here we witness not merely the innovation by China of paper money, but also the first devaluation of Chinese banknotes, private as well as official.

Mongol, Ming, Ching Dynasties

Following the Sung's came the Yuan (or Mongol) dynasty, from 1260 A.D. to 1368 A.D. The Mongols came as an alien race of aggressors whose principal aim was to conquer additional land. Upon entering the Chinese scene they evolved a novel note issuing scheme, initially providing for silver as basis for their new currency system. However, about twenty years after their arrival their fiat money began to depreciate, a movement which gained momentum when their encroachments upon the rights and territories of their Far Eastern neighbors demanded stupendous outlays. The latter could only be procured by means of the printing press. The Mongols also emitted military scrip, the fate of which became apparent

upon its enforced circulation. By 1358 A.D. paper notes foisted upon China had turned practically worthless. Ten years later the Yuan dynasty had to give up its conquests in China and was forced to abandon the country.

The Mongol's successor, the Chinese Ming dynasty (1368-1644 A.D.),

The alien Ta Ching dynasty (1644-1911), shortly after its inauguration, after shyly testing the market with moderate note emissions, soon had to abandon its project, as the people could not be induced to handle any more valueless paper. Only between 1851 and 1857, by which time the Taiping Rebellion had caused a

Hsien Feng note, 1000 cash, 1854

knew no better than to repeat the antics of its precursors, namely the inauguration of a new currency ostensibly based upon silver and copper. Such paper terminated in a comparatively early repudiation, finally dropping to zero. As in former instances, the printing press worked largely for the destructive military cadres, generating malignant inflation which in the end swept away the Ming dynasty.

scorched earth cataclysm, did Peking feel pressed to issue paper money in terms of taels and copper cash. The new attempt proved abortive, and within less than a decade these Hsien Feng notes became completely valueless.

Ancient Chinese paper money was printed on rough native paper from wooden blocks, usually of large format. In the majority of cases the denomination was filled in with

ink and brush. All the notes were richly provided with vermillion seals. In the majority of cases they contained inscriptions, offering fixed sums for denouncing forgers.

Modern Times

The complete fiasco suffered by the authorities of four successive

note circulation. Their traditional skill as bankers and money manipulators has had world wide recognition at all times. Their failure to handle paper money successfully was due almost exclusively to the necessity of warding off incessant attacks by neighboring states, or, as is applicable to the Mongol hordes, to the lust

dynasties ruling over China's destinies, both financially and politically, are liable to create the impression that the Chinese people were poor economists. Actually, just the contrary has been the case throughout many centuries. The average Chinese, even when poorly educated, is definitely an intelligent individual. The authorities at all times were fully aware of the intricate mechanism connected with an organized

for aggrandizement. Both these instances required enormous quantities of money to pay the proverbially insatiable soldiery.

The year 1900 witnessed the ill-advised Boxer Rebellion in China, results of which put China back many decades. One of the beneficial results of the uprising, however, was the universal outcry for the institution of reforms in all walks of life. It was deemed essential to

amend both the currency and banking of China. Out of this grew the first modern government bank, the Hupu Bank (*hupu* stands for "board of revenue"), which opened in 1905. Capital for the bank was fixed at four million taels, increased by 1908 to ten million taels. By this time

joyed extensive circulation as they made it a point to redeem their note issues upon presentation against silver coin or silver sycee. At the time the Ta Ching Government Bank took over the affairs of the Hupu Bank, the latter had a note circulation of slightly under three million

it had been decided to change the name of the Hupu Bank to Ta Ching Government Bank. Both these institutions issued banknotes, though they did not obtain the sole right of circulation. Both attained fairly good results, and their money en-

joyed extensive circulation as they made it a point to redeem their note issues upon presentation against silver coin or silver sycee. At the time the Ta Ching Government Bank took over the affairs of the Hupu Bank, the latter had a note circulation of slightly under three million

The Republic

On October 10, 1911, a revolution broke out in Central China, resulting in the inauguration of the Re-

public and the end of the Ta Ching (Manchu) dynasty. By June 30, 1911, the note circulation of the Ta

Out of the flaming ruins of the Ta Ching Government Bank, also

October, 1911, and February, 1912, panic, looting and chaos occurred all over China. At Shanghai the important branch office of the newly

created Bank of China opened for business February 5, 1912, but the Peking head office remained closed due to lack of funds until August 1, 1912.

The new regulations for the Bank of China provided for a capitalization of sixty million Chinese dollars (yuan) but in 1935 that figure was reduced to forty million. The Bank of China was extremely well managed and gained constantly in importance. This is the more noteworthy since the chaotic conditions during the revolutionary decades caused many losses and made business ex-

Although the Hupu Bank and its immediate successors, the Ta Ching Government Bank and the Bank of China, were fully able to fill the requirements of government institutions, political rivalry was responsible for the foundation of another

1922.....	77,766,000

*As of June 30

It was decided that, as of June, 1942, the Central Bank of China (then domiciled in Chungking) should henceforth be the sole bank of issue in China. From that date onward the Bank of China (while still retaining the dignity of a government bank) ceased to circulate its banknotes. All branches of the Bank of China situated on the main-

land were forcibly taken over by the Communists in 1948 and 1949 and functioned under the style of Bank of Communications. It became notorious, and insolvent, when in 1916 it strove to finance the infamous attempt of President Yuan Shih-kai to become Emperor of China. The following table shows the note circulation of the Bank of Communication in Chinese dollars (yuan) in quinquennial intervals at the end of the calendar year:

1912.....	\$ 793,000
1917.....	28,604,000

1937.....	371,144,000
1940.....	727,567,000*

*As of June 30

As was the case with the Bank of China, the Bank of Communications had to abandon its right to issue fiat money (June, 1942), at a juncture when its then unpublished note

Notwithstanding the fact that China could boast of two government banks, the authorities decided that a third such institution was needed. This determination was re-

alized when the Central Bank of China opened on November 1, 1928 with an initial capitalization of twenty million Chinese dollars, to function side by side with the other two government institutions and,

moreover, to add a fourth semi-government bank, the Farmers Bank of China started in 1935. While all private banks domiciled in China had to cease emitting paper money after November, 1935, the four government institutions retained their note issuing privilege until June, 1942, when the Central Bank of China assumed the sole right of emission throughout China.

The statutes governing the operations of the Central Bank of China provided *inter alia* for a 100% reserve to be held against its note issues, 60% in cash, coin or bullion, 40% in government bonds or readily negotiable commercial paper.

Central Bank of China

From the outset the Central Bank of China enjoyed excellent management and its readily redeemable bank notes became very popular. On November 3, 1935, China, under the auspices of the institution, initiated a currency reform which signified ready redemption of bank notes against foreign monies. Shortly before China's tael currency had been abolished and the monetary system of the country had been unified on the basis of the Chinese dollar (yuan), of fixed equal value throughout the entire huge area of China.

From that period onward China's paper money was officially styled *fapi*, meaning "legal tender." As a direct consequence of successful achievements in the monetary field China's foreign trade flourished and promised further advancement. The bank's profits grew to such an extent that it was resolved to transform its structure by converting it into the Central Reserve Bank of China, with a capitalization of one hundred million yuans.

The plan, however, could not be realized, due to the aggressive military campaign initiated by Japan in July, 1937, a major misfortune which compelled the Central Bank of China to move its headquarters to the war-time capital of Chungking, in eastern Szechuen. As will be recalled, the Sino-Japanese imbroglio lasted eight bitter years. Apart from the indescribable physical damage in-

flicted by the Nipponese, there was untold damage to China's economic fabric, because of the occupation of the richest areas by Japan's armed might.

Shortly after the defeat of Japan (1945), China, still bleeding from her deep wounds, became embroiled in internecine combat, unsuccessfully trying to ward off the attacks of the Chinese Communists. Fratricidal wars brought further ruin and chaos to the sorely tried country and ended in the complete loss of the Chinese mainland to the red armies. Financing such endless warfare at a time when the richest provinces were under enemy occupation left Nationalist China no other choice than recourse to the printing press. The result was malignant inflation and complete devaluation of Nationalist *fapi* money. By December, 1948, paper emitted by the Central Bank of China had reached the colossal total of *fapi* \$60,000,000,000,000. But, at the time when there still was hope, circulation figures were as follows:

1928.....	\$ 11,697,000
1931.....	24,773,000
1934.....	85,339,000
1937.....	487,190,000
1940.....	1,623,380,000*

COORDINATION TABLE FOR CASTILE AND LEON

The data in the accompanying chart was based primarily on the information contained in Heiss (abbreviated H.—) and supplemented with the data in Predals y Moline's catalog of the collection of Manuel Vidal Quadras y Ramon (abbreviated V.Q.R.—). Other references, both in this and subsequent Spanish sections are listed by author's name in full when used in following coin lists. This chart does not necessarily contain all possible denominations and mints but has been made as complete as possible from the information at the authors disposal. This is also true of the charts for other Spanish nations or dependencies (Aragon, Navarre, etc.). The coins listed for Urraca for San Antolin are noted here and in the coin lists. There are some denominational differences between coins listed in Heiss and in V.Q.R. and when these occur some note is made either in the chart footnotes or on the chart itself.

HISTORICAL NOTES AND COIN LISTS

The origin of the Kingdom of Castile is found in the will of Sancho III of Navarre, who died in 1035. Sancho divided his kingdom into three parts, his oldest son Garcia inheriting Navarre, the second son Fernando receiving Castile, while to his illegitimate son Ramiro was given Aragon.

Fernando I of Castile (1035-1065) almost immediately became embroiled in a war with Leon which soon ended with the incorporation of Leon into Castile.

This was followed by numerous wars with Navarre all of which were indecisive. In 1054 the war with Navarre was abandoned, and Ferdinand embarked in a religious war of conquest against the Moslems ending with the addition of some territory to his realm. Ferdinand failed to learn by his own experience and on his death in 1065 Castile was divided into three kingdoms (Castile, Leon and Galicia) and two lesser principalities. A long, bitter civil war followed the death of Ferdinand I as a result of his unwise policy of dividing the kingdom.

Coins of Alfonso VI (1065-1109)

Ferdinand's son Alfonso VI (1065-1109) managed to seize control of the entire domain. Alfonso successfully continued his father's religious wars and was able to capture the great city of Toledo as well as the territory of Valencia. His death came in 1109, and lacking sons, he was succeeded by his daughter Urraca.

Coins of Urraca (1109-1126)

Urraca was born in 1081 and had been married to Raimundo, Count of Galicia, who had died in 1107 leaving her with an infant son, Alfonso. Urraca, young and a widow, was not considered capable of ruling Castile alone and was encouraged to remarry. Alfonso I (the Battler) of Aragon was selected as the groom but the marriage was not a happy one. Urraca was not as prudent as she could have been and Alfonso had a tendency to rule in his own name rather than through his wife's authority. The marriage was repudiated in 1111 and two years later it was formally annulled by Pope Pascal II. An indecisive war with Alfonso resulted, continuing on and off until the queen's death in 1126. She was succeeded by the child of her first marriage, Alfonso VII.

Book Review

Confederate States Paper Money by **Arlie R. Slabaugh**, Centennial Edition, Whitman Publishing Company, Racine, Wisc., 1961, illustrated, 64 pp., \$1.00.

Several books are available on this subject but certainly none gives so much information in a handy size volume at such low cost. As in the first two editions, this Centennial Edition depicts and describes all types and some major varieties of notes of the seven issues. Also, prevailing retail prices are shown in good and uncirculated conditions.

The first forty-nine pages of the new edition, which constitute Part I — Catalog, covers the same material as practically the entire earlier editions contained. However, new information has been added in the note descriptions and prices have been revised. Part II — Historical Data, is entirely new and covers the chemiographic backs; counterfeit, facsimile and bogus notes; and vignettes on Confederate notes. We find much interest in the table that identifies notes on which various vignettes and portraits were used.

To those who collect Confederate notes, this new edition is practically a necessity. To others it is well worth the small cost for the information it furnishes on that phase of American history which was being made just a century ago. — GLENN S.

Editorial

GEORGE BAUER AND HENRI RIPSTRA

"The roots of the present lie deep in the past," my high school history teacher used to say. That is particularly appropriate for numismatics.

The roots of American numismatics were firmly planted in the later Nineteenth Century and flowered in the first half of the Twentieth. The ground was fertile. Growth was inevitable because of the vision and strength of leaders like Dr. George Heath, Howland Wood, Farran Zerbe and others. To the ranks of these departed giants of American numismatics the names of George J. Bauer and J. Henri Ripstra have been added.

Thus two more of the vital links with the past have been severed. These two men taught and practiced all that is good in numismatics. They were helpful to novices and fair to advanced numismatists.

All are honored and revered by those of us to whom the field of numismatics is more than an excuse for wild and unreasoning speculation. They are the men who founded the American Numismatic Association, nurtured it and gave it unselfishly of their time and talents. They brought the Association to maturity.

George Bauer and Henri Ripstra will be missed, but their examples of what is right remains. They leave us a legacy of high-mindedness, of integrity, of good citizenship, of warm friendship. The world is a better place for their having been here. — EGB

It's no reflection on the articulate Mr. Kennedy to point out that anybody who deals with words can stumble once in a while. As practitioners of word-smithery ourselves, we can vouch — that is to say we know only too well, and it behooves us to say that, well, there are some days, often, when backward run the words and we don't always write so pretty good either, if you know what we mean. — *Chicago Daily News*, April 24, 1961

A.N.A. OBTAINS NEW CHARTER

The American Numismatic Association was organized in 1891 but it was not until May 9, 1912 that it was incorporated under the laws of the United States by an act of Congress. That charter has acted as the Association's constitution and all by laws were required to be consistent with it. The charter was issued for fifty years and was nearing expiration. It was necessary, therefore, that it be renewed or replaced prior to its expiration date. That has now been done.

On May 15, 1961, after the necessary papers had been prepared, the officers and members whose names appear in the reproduction of the

Officers and members who signed the new A.N.A. charter were, left to right, Ellis Edlowitz, Washington attorney who represented the Association in the legal details of obtaining the charter, Richard McCabe, Washington D. C., Lewis M. Reagan, General Secretary, C. C. Shroyer, First Vice President, H. R. Brickert, Washington, D. C., F. C. Schneider, Washington, D.C., President O. H. Dodson, seated, Charles A. Peters, Washington, D.C., Harry Lessin, Legal Counsel.

new charter, appeared in Washington, D. C., and completed the formalities of signing the charter and some associated documents and the new certificate of incorporation became effective on the following day, May 16, 1961.

In addition to those signing the new charter, Past-President M. Vernon Sheldon and Mrs. Sheldon, Sergeant-at-Arms Louis S. Werner, Congressman William M. McCulloch and Congressman John M. Ashbrook, both of Ohio, were present.

The new charter now becomes the constitution, and will require some modification of the by laws, to be made at the next annual convention of the Association. It is perpetual and does not require that the principal office of the Association be established in Washington, D. C. The following is a copy of the new charter.

CERTIFICATE OF INCORPORATION OF AMERICAN NUMISMATIC ASSOCIATION

NIGERIAN CURRENCY—The replacement of West African Currency Board notes by national currency in Nigeria was completed in 1960 but at year's end about ten million pounds worth of coins still circulated.

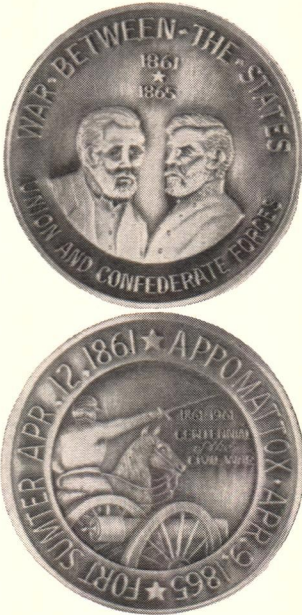

ERRATUM: Instead of being "exact size," as stated in the cutlines (pp. 726 and 727, June *Numismatist*) under the illustrations of the 1804 and 1805 silver dollars, the cuts are slightly under the forty millimeter diameter of these and other early U. S. dollars.

A Woman's Touch—Our new U. S. Treasurer, Mrs. Elizabeth Rudel Smith, is promoting our changeover to multicolored paper money. Only the \$1.00 would continue the long familiar green; other denominations would each get a different color. The thought is to make counting easier and lessen the danger of short changing.

bile founder in 1711. The reverse carries the official seal of the anniversary committee which includes the six flags that have flown over Mobile during its two hundred and fifty years.

The design was suggested by the Committee and the art work was executed by E. Von Hebel of the Mint. The designs were approved by the Fine Arts Commission in Washington, D. C. and the Mobile 250th Executive Committee.

Five thousand will be issued. Mobile citizens had the first purchase opportunity and residents of Alabama the second. Five hundred medals for coin collectors outside the state have been reserved and will be distributed on a first come first served basis, with a limit of one only per person. All will be sold for \$5.50 through the Mobile 250th Anniversary Committee, P. O. Box 397, Mobile, Ala. All orders should be accompanied with a check or money order.

Indiana State Convention

The energetic members of Evansville Coin Club lived up to advance publicity for the third annual convention of Indiana State Numismatic Society, held at the Vendome Hotel May 19-21. Decorations, displays, a commemorative medallion and honored guest Grover Criswell's banquet talk all reflected the convention theme—the centennial of the Civil War, according to a report by Marie T. Gass, Secretary of the local club.

Exhibits were outstanding in both quantity and quality. Easily the main attraction was Irving M. Moskovitz's

magnificent collection of gold coins and medals of the world, which was displayed in a special room. The judges gave it the best-in-show award. Other winners of first, second and third exhibit trophies were: Juniors under thirteen years—Suzanne Pukall, John C. Schroeder, and Steve Shelton; juniors, thirteen to twenty-one years—Myron Hoffman, Paul Cunningham, and Dennis W. Beadles. Best-in-show for juniors went to Jamie Davis. Gold, paper money, medals and tokens—Glenn B. Smedley, Burnell Ault, and George D. Hatie; copper and silver coins—George D. Hatie, William C. Pukall, and Glenn B. Smedley; Civil War exhibits—William P. Hurt, Carl W. Simons, and Max L. Keller. A trophy was presented to the Old Fort Coin Club, Fort Wayne, as being the out of town club entering the most exhibits.

Among the out of town guests who enjoyed the exhibits and browsed among the well-stocked bourse tables were the following A.N.A. officers: President and Mrs. O. H. Dodson, Second Vice President Matt H. Roth-

ert, General Secretary Lewis M. Reagan, Advertising Manager S. W. and Mrs. Freeman; Slide Custodian Michael M. Dolnick. Newly elected officers of the state association present were President Arthur Merritt, First Vice President Marvin Garruth, Secretary Neil Certain, Treasurer Ray Fiscus, Sergeant-at-Arms John Shaffer, and Governors R. E. Daniel, Charles Hathaway, William Pukall and Marion Watson. Probably the one who travelled the farthest to attend was Peter B. Payne of San Bernardino, Cal., who conducted the three-session auction.

Following a turkey dinner Saturday evening, more than one hundred fifty banquetters enjoyed a talk by that southern gentleman and expert on Confederate money, Grover C. Criswell. He gave a preview of his forthcoming book on Confederate bonds,

and easily convinced those present that this little-known phase of Confederate finance will become of increasing interest to numismatists. He closed by congratulating the local committee on spelling "y'awl" correctly on a sign in the banquet room.

Arkansans Convene At Little Rock

The Greater Little Rock Coin Club was host to the fourteenth annual convention of the Arkansas Numis-

Arkansas Numismatic Society officers, l. to r., Retiring President W. M. Hackett, Vice President J. R. Luten, President C. G. Ball, and Mrs. J. P. Willis, Secretary.

matic Society on May 6 and 7 at the Hotel Albert Pike in Little Rock. Twenty-nine bourse dealers from six states offered a variety of choice material, with early type coins and gold seeming to be the most popular items. A 1907 Saint-Gaudens high relief double eagle, owned by Willis Coin Mart of Little Rock, drew much attention, having been featured on a pre-convention publicity television program.

The first place exhibit award went to Lyle O. Hill for his complete set of cents from 1793 to date. The large cents were fine to uncirculated and all small cents were either uncirculated or proof. Dennis Douglas took second with an impressive exhibit of gold which included a complete set of quarter eagles. Jim Pelezo of Greenville, Miss., displayed his 1924-S dime with the new hair-do. Matt Rothert, A.N.A. Second Vice Presi-

dent, did his usual fine job of calling the auction.

At the board meeting, an honorary membership was voted to Dr. Harlan Blaine, a charter member, for his many fine works. New officers elected were: president, C. G. Ball; vice president, Dr. J. R. Luten; secretary, Mrs. J. P. Willis; treasurer, Robert Stroud.

New Book on So-Called Dollars Is Planned

Assistance of fellow collectors is sought by Hal E. Hibler and Prof. Charles V. Kappen to make their proposed *So-Called Dollars: Guide Book and Standard Catalog* as complete and accurate as possible. Scheduled for publication at year's end, it is a revision of the late Richard D. Kenney's standard work which contained thirty-three issues and a hundred eighty-one medals.

The new book, already having about a hundred and fifty issues and five hundred medals, is divided into three sections covering commemorative and exposition medals of national interest, local concern, and monetary and miscellaneous items. All pieces are to be of the United States only, of a minimum diameter of thirty-three millimeters and a maximum diameter of forty-five millimeters (with the exception that Bryan dollars will be listed).

Not wanted are holed or looped material (unless struck plain also), campaign, school, coin club, armed forces, calendar medals, store cards, trade tokens, emergency money or "unique" pieces. Background stories and illustrations are planned.

Collectors are invited to cooperate by listing their medals (not in Kenney) which meet the above conditions. Do not send specimens at this time but submit brief descriptions, dates, metals and sizes of your medals. Write either Hal E. Hibler, 60 Brattle St., Cambridge 38, Mass. or Charles V. Kappen, 2201 Peachtree Ln., San Jose 28, Cal.

Approves Style Change In General Secretary's Report

Dear Mr. Bradfield:

Man's eternal fault has always been that of being quick to condemn and slow to offer praise. He sets his mind to pass judgment upon just about everything—in his own light, as he sees it. Often if things are not to his liking, he raises his voice loud and long. On the other hand, if praise is due, he fails to offer same. True,

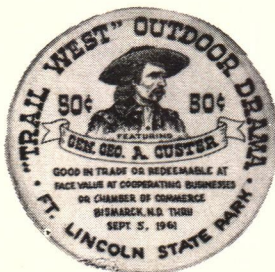

some fault finding is justified. Equally so, some commending is in line.

We note a vast improvement in the arrangement and the printing of the General Secretary's report of "Applications for Membership" list in the May issue of *The Numismatist*. We wish to register our approval. The column listings and the separations involved in the printing, affords greater eye appeal, hence easier to read. We think this is an important section of our publication, and not just a matter of statistics. We are interested in Mr. Applicant, his locale, his proposer, and his specialty. We wish to commend you for this improved feature.

Shawnee Hills Medalists To Strike Alamo Commemorative

The first in a series of historical commemorative medals is announced by Shawnee Hills Medalists, P. O. Box 342, Harrisburg, Ill. Roy C. Small, president, said one issue to be released each year will commemorate an important event in the history of the United States. The first honors the brave men who perished at the Alamo in 1836. The piece was designed by Daniel Satterfield of the Shawnee Hills art staff.

The medal shows in the center the historic old mission-fortress with a battle-tattered flag waving proudly in the breeze. In the foreground a long rifle and powder horn lie in the dust overdraped by a Lone Star banner. The obverse legend reads: THE BATTLE OF THE ALAMO, 125TH ANNIVERSARY, 1836-1961.

The reverse features this legend within a wreath: IN MEMORY OF THE SMALL BAND OF BRAVE MEN WHO, FOR THIRTEEN DAYS, WITHSTOOD THE ON-SLAUGHTS OF THE MEXICAN HORDES UNDER THE TYRANT SANTA ANNA. THESE GALLANT SOLDIERS DIED TO THE LAST MAN AT THE BATTLE OF THE ALAMO, DEFENDING THEIR RIGHT TO FREEDOM AND THE INDEPENDENCE OF THE LONE STAR REPUBLIC OF TEXAS.

The size 24 medal is in bronze, sterling silver and platinum. Precious medals will be limited and serially numbered. Special presentation pieces will be struck for Vice President Lyndon B. Johnson and four other prominent Texans. Prices are \$2.00 for bronze and \$7.50 for sterling silver. Platinum prices are available on request.

Assistance Wanted

Dear Editor:

I am presently doing research preparatory to compiling and publishing a listing of Michigan historical medals. I hope to follow this with a similar listing of Michigan trade tokens and would greatly appreciate hearing from any of *The Numismatist* readers having information about either or specimens of the same which they would lend me for photographing purposes.

Mint to Strike Bronze Medals of Frost, Dooley

Congress has passed, and the President has approved, a bill authorizing the Mint to strike duplicates in bronze of the gold medal given to Poet Robert Frost and offer them for public sale (Public Law 87-39). Also approved (Public Law 87-42) was the appropriation of \$2,500 for the striking by the Mint of a gold medal in honor of the late Dr. Thomas Dooley III. Bronze duplicates will be made available to the public by the Mint.

The appointment of Mrs. Fern V. Miller to be Superintendent of the Denver Mint, succeeding Mrs. Alma K. Schneider, was confirmed by the U. S. Senate May 9. Born in Denver November 29, 1892, she has lived in Colorado all her life. After serving as a school teacher for several years, she was Secretary of the Platteville Consolidated Schools for ten years. Mrs. Miller has been Vice Chairman of the Colorado Democrat State Committee since 1948. Her husband, Albert L. Miller, is a retired farmer. They live in Platteville and have three sons, Roland, Elton and Allyn.

Hold Man in Detroit As Burglary Suspect

Gilbert Justin, 39, was picked up early in April by Detroit police for questioning about a series of thefts. Warrants have been issued in London, Ont., Long Beach, Cal. and in Florida. A trunk and suitcase of stamps and coins were found in Justin's apartment. The police acted after a tip from a Detroit dealer who became suspicious at the low price asked for some stamps and coins.

Finland Considers Currency Change

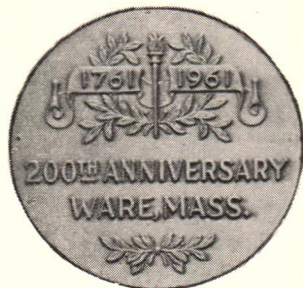

Finland is considering a currency reform centering on the introduction of a "heavy markka" similar to the recent French change. The "heavy markka" would be a hundred times the present markka and an old markka would be worth a new penni.

The reform presupposes a new currency law before the end of 1961 along with a transitional law establishing the relationship of the old and new money. Printing of new notes and striking new coins would take about a year, so that the new system would probably not be effective until 1963.

New notes would resemble the old in format and other features (i.e., a new ten markka note would look like an old thousand markka note). Present notes and coins would remain in circulation as legal tender while they are gradually being replaced.

Ware, Massachusetts Commemorative Medal

Souvenir medals commemorating the bicentennial of the Town of Ware are now available. The obverse is an

exact reproduction of the official medal struck in 1911 for the one hundred and fiftieth anniversary of the town. The original die was available and in good condition and has

therefore been used for the 1961 piece.

The medal shows the seal of the town and is bronze. In twelve-gauge metal, it measures one and one-half inches in diameter.

Binds The Numismatist

Dear Mr. Bradfield:

I am a recent convert to the exciting hobby of coin collecting and

study. Therefore, I am sure that my suggestion is being followed now.

Since joining the A.N.A. last summer, the arrival of *The Numismatist* has brought me new facts and items of interest and ways to better understand my hobby. To keep these interesting articles and sidelights as a ready reference, I have bound the 1960 issues in one volume, and recommend this to all collectors. In addition to keeping all the "nice to know" and "need to know" information where I can get my hands on it, the volume makes an interesting addition to my hobby library.

Thoughts on Numismatic Correspondence Course

Dear Sir:

In response to Edward Hamm's letter printed in the April issue of *The Numismatist*, I think that a correspondence course in numismatics is really a great idea.

Numismatics is one thing which must be largely self taught. One can take in school such related subjects as history and economics, and can learn much by his own experience. But if the American Numismatic Association were to offer an education plan in numismatics, it would give beginners, such as myself, a good background in general numismatics in a clear cut form. It would make a good foundation and probably would incite further research into this field.

If a program like this should be adopted, I can promise you one interested student right here. I certainly hope that the idea is given some careful consideration.

— JAMES BUMP
North Road
Hampden, Mass.

Dear Mr. Bradfield:

May I second the motion of Edward Hamm, Jr. in the April issue of *The Numismatist*, on starting a course in numismatics. I enjoy the hobby very much, and as I am just a beginner, I find it very hard to learn all I want to know about it. Due to the large number of new collectors this could become a big thing. The A.N.A. could also set up a grading standard that is sorely needed.

I don't have any large, small, medium, or in between sizes of the cents that are under so much discussion these days, and am not very con-

cerned about them, but there are collectors who are.

I hope you will give the suggestion further consideration, as it would better a fine hobby. May I say in closing, that I consider the \$7.00 I sent to join A.N.A. was one of the wisest investments I ever made.

The first issue of the *Numisma* was printed in May, 1939 in an edition of seventy-five copies and the last was No. 7 in October, 1948. Butler has cataloged, mounted and labeled every coin and bill he ever acquired. "There are two types of numismatists," he is quoted by *Look*, "one collects for investment; the other, out of love for the interesting, bizarre bits of history contained in coins. Pittsburgh Post-Gazette, April 30, 1961, published "Masterpieces in Metal Worth a Mint of Money" by Norman Greenberg. CONVENTION PAPERS

This is the official call for convention papers. Whether you have a short article or a long one, whether your subject is quite general or highly specialized, whether you have your script complete down to the last "i" and "t" or are still carrying the idea in your head, get on the team that is promoting the King of Hobbies.

If your study is complete, send it in. If you have started but have not finished it, wrap it up and send it in. If you have not yet started, take the cover off your typewriter and write. You will then have the satisfaction of doing your bit for your fellow numismatists.

Papers will receive every consideration and those found suitable published in *The Numismatist*. Particularly desired are short articles of 1500 to 2000 words. Subjects wanted most are those pertaining to Americana - coins, medals, tokens, paper money. Papers in any other numismatic field, however, are welcome - ancient, medieval or modern.

So - think about it, write it and send it to the Editor. - ELSTON G. BRADFIELD

Tributes to George J. Bauer and J. Henri Ripstra

The most familiar face of them all will be missing at the Atlanta convention. George J. Bauer, eminent numismatist and grand patriarch of the A.N.A. has registered for the last time. To our sorrow, the champion has departed. — JACK W. OGILVIE, Historian

We were very sorry to learn of the passing of George J. Bauer, who gave much to numismatics and the American Numismatic Association. He was a numismatist in every sense of the word. A man of character and understanding. It was a privilege to know him. — LOYD B. GETTYS, A.N.A. Past President

There is a deep sense of personal loss felt by every collector of classical coins who had the rewarding privilege of association and friendship with Mr. Bauer. His efforts to create in 1941 the Newell Visual Education activity bespeaks the deep concern and insight to further numismatic learning to all members of our Association and was a laudable achievement from one of the Past Presidents of the A.N.A. — M. VERNON SHELDON, A.N.A. Past President

With the passing of George G. Bauer, a member of the American Numismatic Association since 1892, we have lost one of the great pillars of our Association. He attended most of our conventions and always had a word of advice and an interesting numismatic story to tell. My sincere sympathy is extended to all who knew him. — ARTHUR SIPE, A.N.A. Governor

I have seen former A.N.A. President, George A. Bauer, at many A.N.A. conventions. He was one of the first numismatists that I chanced to have a long conversation with, many years ago, when I first started collecting. His stories of his bicycle races, his unusual finds of old coins, and other interesting anecdotes have always been helpful and amusing. George Bauer was a real numismatist and a good example of how his hobby has enriched the lives of many. We all mourn the death of our old friend, George. — MATT H. ROTHERT, A.N.A. Second Vice President

George Bauer was a true numismatist of the old school, preferring ancient coins and their high degree of art as against coins of the present day. He always enjoyed being among his friends at conventions and it was a pleasure to see him again at Boston. American numismatics will wait a long time before it develops as staunch a proponent of ancient coins as George Bauer. — MARTIN F. KORTJOHN, A.N.A. Past President

This month (May) marked the passing of two Past Presidents of the American Numismatic Association, J. Henri Ripstra and George J. Bauer. It was a privilege to have known both of them most of my twenty-six years in the organization. We of the numismatic fraternity should be thankful for the contributions they have made. Personally, I feel I have lost two good friends. — C. C. SHROYER, A.N.A. First Vice President

It was indeed with deep regret that I learned only recently about the death of J. Henri Ripstra of Chicago, Ill., a former President of the A.N.A. and a devoted member of our Association for more than half a century. I extend to all who know Henri Ripstra my sincere sympathy; he will be greatly missed by all of us. — ARTHUR SIPE, A.N.A. Governor

With the passing of J. Henri Ripstra, we have lost a dear friend and an ardent numismatist. I have always enjoyed his warm personality as well as his sound counseling. Through the years "Henri" served the American Numismatic Association faithfully in many ways and will long be remembered. — HAROLD R. KLEIN, A.N.A. Treasurer

Henri Ripstra was one of the men whose efforts formed the building blocks that have given the A.N.A. its present stature. — DON SHERER, Asst. to A.N.A. General Secretary

I have attended several of the Chicago Coin Club meetings during which Henri Ripstra installed the new officers. His wealth of anecdotes, his knowledge of numismatics and his humor always made these informal talks outstanding. He showed interest and enthusiasm at all times to anything numismatic. The A.N.A. has lost one of its greatest "deans," and the Chicago Coin Club has lost one of its greatest senior members. We all mourn his passing. — MATT H. ROTHERT, A.N.A. Second Vice President

It is not often that a person has the opportunity of meeting and visiting with a numismatist. It was my privilege of enjoying a lengthy visit with Mr. Ripstra in Chicago a few years ago while attending an interim meeting of

the officers and the Board of Central States Numismatic Society held during the Chicago Coin Club Show. My first impression was one of immediate interest. His knowledge of numismatics was astounding and one could tell in a moment that here was a gentleman to admire whose advice was to be acknowledged.

Life is a beautiful thing, life as he found it was certainly the case. There are so many people who never find it — or who, having thought they found it, discover its unreality. To those who knew him the memory will never let the wonderful moments escape. They are the ones who have benefited and whose lives are enriched with his wisdom.

We cannot change the Divine laws. But we can face the days ahead with courage and hope of someday finding a man who might become a guide to lead in the manner of Mr. Ripstra, and always thankful for the joys we have had in the past with just such a gentleman, friend, student, helper, scholar, and "Grand Old Numismatist." — RAY O. LEFMAN, President, Central States Numismatic Society

I met Henri Ripstra for the first time in 1933, when I arrived in Chicago to visit the World's Fair and to attend my first A.N.A. convention. Moritz Wormser (another grand person) gave me a letter of introduction to Henri, and advised me to see him. After our meeting, I found out why he was so liked, admired and respected by all who knew him. From that first day I met him until his last day, he never changed; once you became his friend it was an everlasting one. During my stay in Chicago, Henri was like a "big brother" to me, showed me around town every place of interest, introduced me to a few of his dear friends — Governor Horner of Ill., the Mayor of Chicago (who appointed Henri as head of the Crime and Juvenile Commission) and to Chicago Coin Club members. Henri was the General Chairman of the A.N.A. convention and appointed me to his Reception Committee, to help him greet the New York and other Eastern members. Large groups arrived and I stood aside and watched Henri as he greeted each member and their families, his very presence sparked the convention into days of continuous enjoyment. He said meeting people was like an old family reunion, you see them once a year at these A.N.A. conventions; I found out what he meant. In 1937, he recommended my name to President James Clarke as the Sergeant-at-Arms, the job I still serve with a great deal of pleasure. He was a big kind-hearted man, a wit, an orator, scholar in numismatic art, very serious person when it came down to business. His presence anywhere during conventions was highlighted with fun, laughter and serious numismatic talks. I am ever grateful for the long years of his warm friendship. May his name live on and on, and his good fellowship be remembered forever. — LOUIS S. WERNER, A.N.A. Sergeant-at-Arms

Numismatists everywhere will mourn the passing of my good and personal friend, J. Henri Ripstra. His active and sincere interest in our hobby, over many years, endeared him to everyone who had the pleasure of knowing him.

I, personally, feel that whatever honor I may have attained in both the American and Iowa Numismatic Associations was largely due to his assistance, encouragement and support. No one else can take his place in my memories. — V. LEON BELT, A.N.A. Past President — Iowa Numismatic Association Past President

Posterity is enriched by the good works coming from the artistic skill of J. Henri Ripstra. When one reflects upon Mr. Ripstra's impressive medals: The Chicago Numismatic Society Classical Athenian Tetradrachm membership medal; the Nashville medal; the Henry Ford medal; Italo Balbo medal; and Helen Culver medal, along with his plaque of Lincoln he used as a gift to friends, are the undying noble and base metal monuments of his sculptured art. There will long remain the much sought after tangible records of a compassionate, resourceful, and creative honored Past President of the American Numismatic Association. — M. VERNON SHELDON, A.N.A. Past President

J. Henri Ripstra, charter member of the Chicago Coin Club, joined another numismatic group on May 4, 1961. Words can never fully express the affection felt by numismatists everywhere for this honored leader. His absence from future meetings of this club will always be concealed by his memory. — HUGH M. KNIGHT, President Chicago Coin Club

Numismatics lost a devoted follower and a great contributor, when J. Henri Ripstra passed on. Genial, pleasant and learned, he did much to bridge

two eras. It may truly be said that he personalized tradition. — COL. JAMES W. CURTIS, A.N.A. Governor

From the first I was inspired by the presence of Henri Ripstra. Now he rests — one who has walked in the many paths of God, a person who responded both with vigor and warmth in the tasks assigned to him, in the associations developed around him. Happy in his interrelated vocation and avocation, he exemplified so much of the ultimate wistfully sought for in man that for the things we now remember him he is certain to become as legendary as our founders. — HARRY M. LESSIN, A.N.A. Legal Counsel

Since the year 1911, when he designed the present convention badge, the pages of A.N.A. history have chronicled the many contributions of the artistry, efforts and leadership of J. Henri Ripstra. It is with sorrow that we must record the final entry of this dedicated man. — JACK W. OGILVIE, A.N.A. Historian

With the passing of J. Henri Ripstra, the A.N.A. has lost one of its dearest friends. God bless you, Henri. Bernie and I will always cherish our much too brief visit in Chicago. — JOHN J. GABARRON, A.N.A. Librarian

Henri Ripstra's passing leaves a void in Iowa numismatics that will never be filled. He was "Mr. INA." As our Member No. One and as the engraver of the INA seal, he left his mark on his "step-state." He loved to attend our conventions and we loved having him and Anna. We will miss him but we are truly grateful for having had him in our midst. — HAROLD E. BAKER, INA Past President

Henri was a lovable person who engaged in many activities, among which were numismatics, philatelics, art, books on Lincoln and the Odd Fellows. Which of these he enjoyed most is difficult to say. Before he became A.N.A. President, he was most helpful in the writing up of bylaws which were approved at the 1937 Washington convention. The work on these bylaws was culminated at Jamestown when Herbert Walker, Henri Ripstra and I met at the Hotel Jamestown under the presidency of T. James Clarke.

I had the pleasure of serving as Governor during Henri's two terms as President, and again as his fellow Governor for two years under L. W. Hoffecker, and finally having him serve as Governor during my first year as President. His recommendations and suggestions were most helpful and contributed to the high position the American Numismatic Association holds today.

Henri's death means the loss of a dear friend and a fine and jolly gentleman. — MARTIN F. KORTJOHN, A.N.A. Past President

North California Considers Regional Club Organization

A proposed organization of northern California coin clubs is under study, according to East Bay Coin Club's *Uncirculated Proof*, June, 1961. Some desirable reasons advanced are: To avoid clash of meeting dates for special affairs; to divide the cost of California State Numismatic Association conventions, after which the host club is usually "near broke," and to get the American Numismatic Association's 1965 convention.

The official Civil War Centennial medal, portraying Generals Ulysses S. Grant and Robert E. NATIONAL COIN WEEK, 1961

Coins and Currency of Yesteryear

National Coin Week has been a most rewarding experience for me.

I have had the pleasure of working with so many, many fine collectors, individuals, juniors and clubs; all dedicated to the "King" of Hobbies.

Your fine letters of appreciation have made the chairmanship one to be remembered with the greatest of pleasure.

The abundant number of entries has proven to me that the task has not been in vain. I do wish that each and every one of you could see every entry; you'd be as thrilled as I am. Those of you who go to Atlanta will get to see a number of the entries on display there—I look forward to seeing you there personally.

Thank you again for your help in making National Coin Week, 1961 such a success.

Sincerely,
Dolly-Maude Harris, Chairman
National Coin Week, 1961

The Winners

National Coin Week for 1961 was a tremendous success and the committee hopes that it was a rewarding experience for all who participated. The committee appreciates the enthusiasm and promptness with which the reports were prepared and submitted. Nearly two hundred reports were received in competition for the awards and many others reported participation but without detailed reports. It was no small job for the committee to examine and grade the reports, in accordance with the point-score schedule, printed on the entry blanks, but the job has been completed and the following clubs and individuals will be awarded the usual plaques at the Atlanta convention. Some revision in the method of scoring will be made next year, in accordance with the recommendations of the committee. All reports will be returned.

Coins and Currency of Yester-years and from around the world were included in this attractive exhibit which appeared in the window of Cole's Pharmacy in Lamar, Colorado. Club member Thomas V. Nidey prepared the crowd stopping display.

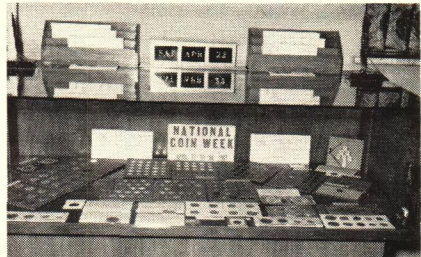

Many banks and business firms were very cooperative in making their facilities for public announcement available for National Coin Week. Signs, such as the one pictured in Lincoln, Nebraska, were typical.

Coins and Presidents of Yester-years made an eye-catching display in exhibit in Colorado Springs, Colo.

Marianne Mulawa points to the coin map of the world as her sister, Christine, and her father M/Sgt. Chester A. Mulawa look on. Sgt. Mulawa spent many hours in an "all-out" effort to prepare the report of the Zebulon Pike Coin Club of Colorado Springs. This Club had exhibits in many parts of Colorado. The exhibit pictured above was among those shown in Fort Carson, Colo.

Facilities inside bank and other business firms were used for many exhibits. The one shown appeared in the Citizens National Bank in New Philadelphia, Ohio.

ALBERT R. FREY

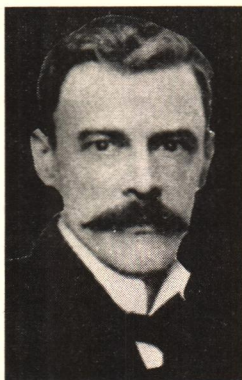

Sixth President, 1905 to 1907

By

JACK W. OGILVIE, LM 93, HISTORIAN

"Meet me in St. Louis, Louie. Meet me at the Fair!"

This was the theme song of the 1904 St. Louis World's Fair. A catchy little ditty which sold a lot of tickets to the Exposition and helped persuade the A.N.A. officials to hold their convention on the fairgrounds October 15 of that year. Very few of the organization heeded the words of the song, as only seventeen of the faithful, some with their wives, were listed on the register. These members held two business sessions that day, performed their official duties and adjourned for an exciting evening on the Midway. One of the duties was electing Albert R. Frey as the sixth President of the American Numismatic Association.

Albert R. Frey

Albert Romer Frey was born in New York City, February 17, 1858 of French and German parentage. He entered the College of the City of New York at the age of thirteen and became interested in philately and numismatics about the same time. (Why did most of the early Presidents start collecting at thirteen?) Young Albert did not do well in school because he would not apply himself to lessons in which he was uninterested. Later, without instructors, he acquired a thorough knowledge of mathematics, ancient and modern languages, philosophy and numismatics. In all his tasks, he worked with methodical precision, at high speed and without mental effort. He was brilliant in conversation, pronounced in his opinions, hasty in his prejudices, none too careful in his attire and extravagant in his loyalty to his friends. He spent most of his small earnings from his position in the New York Customs House on entertaining his many cronies one of whom commented "He knew everything about money except how to acquire it."

Frey became fraternally interested in numismatics when he joined the A.N.A. as Number 225 in December, 1900. Shortly thereafter, by a little finagling of the figures, he came up with Number 12 which he retained thereafter. His numismatic specialties were: tokens, medals and coins relating to printed matter, theatrical, Shakespeare and sundry items in which he held a sentimental interest, among which was anything bearing the image of an elephant. His greatest interest was in numismatic literature. He was fairly well known in New York circles as a numismatic scholar but attended the 1901 Buffalo convention virtually unknown and left elected to the office of First Vice President. Consequently he was one of the group of new blood which made up the official family of Dr. Wright's administration.

He started his writing activities in *The Numismatist* with a column "New York Numismatic Notes" which listed recent auction results. Later, he added other statistics and Manhattan coin chatter which made him a sort of combination of the two Walters — Breen and Winchell — of his time. During 1903 and later, he did a series of metallic cards of well known numismatists. He took over the presidency on January 1, 1905, with a worthy group of subordinates. Farran Zerbe became First Vice President; Howland

Wood, his lifelong friend, was Secretary while Dr. Heath assumed the office of Treasurer. Dr. Wright was Chairman of the Board of which a newcomer, Frank Duffield was a member. Under this array of talent, the A.N.A. could go but one way — forward.

The official family was not the only star-studded group, many were on the membership roster which grew to 940 by the last of December, 1907. Three ranking numismatists of Great Britain were the first honorary members: Sir John Evans, President of the Royal Numismatic Society; Barclay V. Head and Percy Gardner, both of the British Museum. Surviving members of his regime are: Edward W. Williams, F. J. Holthaus, G. P. Adams, Charles Blumenschein, Julius Gutttag.

Four Presidents to be were among the group: Waldo C. Moore, J. Henri Ripstra, Harry Yawger and Nelson Thorsen, as well as two long time officials, George H. Blake and Burton H. Saxton. Another group were: William W. C. Wilson and William A. Ashbrook, both to be heard from soon; Robert P. King, noted for his Lincoln number of the February, 1924 *Numismatist*; Dr. Andrew Baird of Winnipeg; Henry C. Hines, one of the "Big Four" of large cents — Newcomb, Wurtzbach, Clapp and Hines; John W. Haseltine, considered a forefather of American numismatists. Writers were: S. H. Hamer of England; Edgar H. Adams, later an Editor of *The Numismatist* and Edward P. Newell, conceded to be one of the great numismatic scholars of all times. The administration of Frey not only added prestige to the Association but late in 1905, with over four hundred active members, it became the largest numismatic organization in the world, a position it has held ever since that time.

A new constitution and bylaws was drawn up by Frey and Wood and adopted in June, 1907. Among other things, it provided for changing the name of the Board of Trustees to Board of Governors with the Chairman being so designated when elected. Local or district secretaries were established, a practice in effect until supplanted by the modern club representatives.

The first convention in three years was held in Columbus, Ohio on September 2, 3 and 4, 1907 under the auspices of the Ohio State and Columbus Numismatic Societies. Henri Buck, President of the State group and Dr. John Henderson, enterprising Secretary of the Columbus clan were hosts to the thirty-four members and numerous guests. The sponsors put on the best program to that date with excellent entertainment and exhibits valued at thousands of dollars. The business meeting brought out an idea for a convention medal and a committee was named to delve into the matter.

A suggestion for the "Uniform Standard of Classifying the Condition of Coins," an article and pet issue of Howland Wood's was submitted. No action was taken at the time and to this day the issue has not been definitely settled. Another committee was named to collaborate with the American Numismatic Society on the artistic improvement of United States coinage. Suggestions were to be made to President Roosevelt which would aid in keeping new issues on the same artistic level as the Saint-Gaudens gold pieces released earlier that year.

The convention was so successful a proposal was made that, henceforth, it be held annually and a motion to that effect was approved. Six numismatists of world renown were made honorary members, two of whom were William T. R. Marvin, Editor of the *American Journal of Numismatics* and S. S. Crosby, who authored *The Early Coins of America*. When it became time for the election of officers, President Frey informed the assembly that he was not a candidate for reelection and in the voting which followed, Farran Zerbe was named seventh President.

Albert R. Frey remained active in the Association and other numismatic groups for many years. He wrote numerous articles on foreign subjects and

served during 1911 as Editor of *The Numismatist*. His book, *A Dictionary of Numismatic Names*, first published in 1917, was reissued just a few years ago. He was a member of several European organizations including the Royal Numismatic Society as well as being a fellow in the American Numismatic Society. He was an early member of the New York Numismatic Club, served as its President from 1919 to 1921 and in 1924 was awarded the Huntington medal in recognition for his contributions to the science of numismatics. He passed away on February 19, 1926, mourned by the entire numismatic world.

BARBER SHOP TOKENS

State Correctional Institution at Rockview

By

JACK F. BURNS, A.N.A. No. 9944

THE State Correctional Institution at Rockview, which is located in central Pennsylvania approximately six miles southwest of Bellefonte, was opened in 1912 and serves as a minimum security penitentiary.

Nos. 3 and 4, brass, obverse and reverse

It is conducted as a farm colony and utilizes some 6700 acres of land. Rockview has a gross capacity of 1012 inmates, one man to a cell.

A barber shop, opened in 1920, employs two licensed inmate barbers to provide barbering services for officials and employes of the penitentiary. Since the shop was opened tokens have been used as a medium of exchange. The tokens purchased at a current rate of 20¢ each are paid to the barber who performs the service. At the end of the day the barber turns in the tokens and a credit is authorized to his personal-fund account in the amount of 8¢ for each token. The remaining 12¢ is credited to the Inmates' General Welfare Fund.

The following listing describes the tokens and sets forth the time during which they were in use.

Paper, 1920 to 1928

Rectangular, approximately 1" x $\frac{3}{4}$ ", printed by the institution.

Obv. BARBER SHOP 10¢ in center.

Rev. 5¢ in center, GOOD FOR curving at top, IN TRADE curving below, all within outer band of dots. (No. 4)

Editor's Note: Jack F. Burns, honorary Research Associate in the Section of Coins and Medals at Carnegie Museum, Pittsburgh, Pennsylvania, obtained information concerning the barber shop tokens in the survey conducted for the preparation of his recent monograph on the *Media of Exchange Used in State and Federal Penitentiaries*. Reference to these tokens was purposely omitted from that study as they are a special purpose medium, not in general circulation in the institution, and are used only by the penitentiary officials and employees and not by the inmates.

NEW PHILIPPINE COINS

A new Philippine commemorative coin set of silver peso and silver half peso was scheduled for issuance about June 19, 1961. The pieces celebrate the centennial of Jose Rizal, foremost Filipino hero and martyr. A hundred thousand sets have been ordered from the Philadelphia Mint. Both pieces are of coin silver and of sizes corresponding to American dollars and half dollars. The Philippine Numismatic and Antiquarian Society designed and submitted specifications of the coins. The issue was made possible, according to Dr. Pablo I. de Jesus, Senior Vice President of the Prudential Bank and Trust Company of Manila, by the Central Bank of the Philippines, the official government entity authorized to issue coins in the Republic. Our illustration of the obverses of the new coins are those of an advance issue of specimen or trial pieces supplied by Dr. de Jesus, as is the information on the coins. The half peso may undergo slight retouching of the portrait but otherwise no other changes in the design are contemplated.

⁶In 1858 Judge Perkins stated "The C. B. of G. was an illegal institution, and because of its illegality its issues are void, and being void, no action can be brought founded on such notes of issue, although the consideration given for them may be recovered. There is no statute making it a penal offense to issue such paper." And they have such nice pictures!

Numismatic Vignettes

■ A quarter of a century ago. *The Numismatist*, Vol. XLIX – In a December, 1935, New York auction, a br. proof 1879 stella reportedly brought \$112.50, a 2,000 piece Civil War token collection sold at \$89.00, a V.F. 1793 chain cent fetched \$36.00, and a V.F. 1793 half cent realized \$21.00 – In March, John Zug advertised silver dollars; the highest price asked was \$250 for a V.F. 1794 – M. H. Bolender commented (favorably) on his 100th mail bid auction sale – A proof 1836 Gobrecht dollar brought \$27 in Elder's auction in New York in April – Formation in New York City of a new firm of coin dealers was announced, with Moritz Wormser its proprietor and David M. Bullowa and Charles M. Wormser as associates – There was a net gain of four hundred sixty in A.N.A. membership during the fiscal year – Arthur Sipe was admitted to membership in July – William F. Dunham, one of the most colorful A.N.A. members of all time, died at his Chicago home on October 12 – L. S. Werner had a $\frac{3}{4}$ page ad in December, offering "A Numismatic Christmas Greeting Card" at 15¢ or \$1.50 per dozen – Except for serial articles by O. P. Eklund and D. C. Wismer, the subject of commemoratives took up the most pages of text during the year.

■ As we begin the observance of the Civil War anniversary, this numismatist feels fortunate in "discovering" a nonnumismatic book which treats that conflict in an unusual manner. *Bride of Fortune* is the life story, in novel form, of Varina Howell who became the First Lady of the Confederacy and whose life touched many of the principals – both Union and Confederate – of the rebellion. Of particular interest is the influence which she exerted on the brooding, zealous and controversial Jefferson Davis. First published by Doubleday & Com-

pany, Inc. in 1948, the present fifty-cent edition is by Popular Library, Inc.

■ Robert H. Lloyd, A.N.A. No. 3024, writing in the May, 1936, issue of *The Numismatist*, had this to say: "All other worthwhile series are being neglected for this fad, which like all other fads, must eventually break, and so doing will likely take out as many collectors and members as it has brought into our fraternity." What was the "fad" of 1936? Commemorative half dollars.

■ Mrs. Rae V. Biester, Superintendent of the United States mint, wrote one of her delightful letters regarding "Flowers to the living" on page 154 of the February issue. Since we made a misleading statement therein, a portion of her letter is quoted now to set the record right.

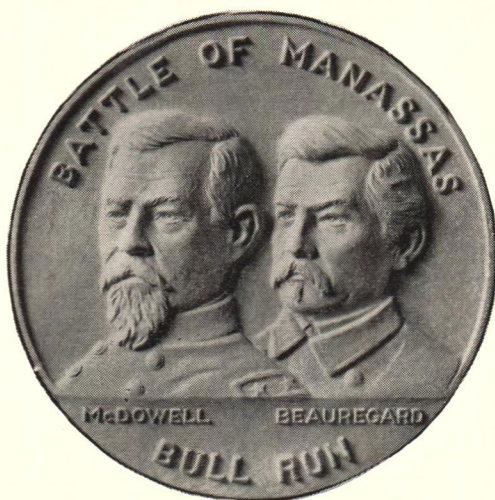

"The Administrative Officer of the two United States Mints is the Superintendent. The title 'Master of the Mint' is used by the Royal Mint of England, and Canada. . . . We certainly do have a Superintendent of the Coining Division! A more dedicated or hard-working person could not be found anywhere; in fact, because he has the largest personnel in the Institution, and of the heavy demands constantly made of him and his Division, I try to add a little deserved prestige to his title, and always speak, refer, and write of him as 'The Coiner of the Mint'!

"I now receive Utah's *Mintmaster*, together with many other numismatic periodicals – all of which I genuinely enjoy and appreciate, as I do the warm friendliness that prompts their mailing to me."

Thank you, Mrs. Biester, for your nice letter and for bringing the error to our attention. Surely the readers of *The Numismatist* appreciate the friendly attitude you have toward collectors and the courteous attention you give us. – GLENN S.

The number of Boy Scout Merit Badge in Coin Collecting in 1960 hit an all time high of 11,447. Interest in this badge is indicated by the following: 4,761 in 1956, 5,628 in 1957, 6,336 in 1958, and 8,513 in 1959.

The first joint stamp and coin show, conducted by the **Bison City Coin Club** and the Plewacki Post Stamp Society, was held March 24-26 at the Adam Plewacki Post of American Legion in Buffalo, N. Y. We believe that the 18,000 persons who passed through the show on the three days sets some sort of an attendance record. There were ten coin bourse tables and twelve stamp dealers operating. The over-all theme was commemoration of the Civil War with numerous exhibits of Civil War relics shown. On Saturday afternoon an auction was conducted by John J. Pittman, and that evening ninety people sat down to the banquet. Pittman exhibited his fine collection of rare coins of Poland in the court of honor. The highest award for coin exhibits went to G. Edwin Seil of Buffalo for his fine showing of mint misstrikes. — RALPH MALTBY, Pres., Bison City Coin Club

The **Klamath Stamp & Coin Club**, Klamath Falls, Ore., held its annual coin show April 29 in connection with National Coin Week. Bourse tables were conducted by local and neighboring city coin dealers, and 188 persons registered during the day. The grand door prize, a set of *Reprints from The Numismatist*, was won by Mrs. Alta Griffin. Exhibit awards were as follows: Paper currency — Maurice Miller; foreign coins — Cecil Redford, Mrs. Millie Cook; U. S. coins — Cecil Redford, Mrs. Millie Cook; foreign coins, juniors — Ronald Larson, David Griffin and Gerald Amerling (tie); U. S. coins, juniors — Jerry Norton, David Griffin. At the May 4 meeting the Club's third anniversary was observed. Officers for 1961-1962 were installed: president, Maurice Miller; vice president, Mrs. Polly Williams; secretary, Ivan Larson; treasurer, Mrs. Mildred Loudon. Visitors are invited to our regular meetings the first Thursday and third Wednesday evenings monthly at the Moose Lodge. — IVAN LARSON, Sec.

The March 10 meeting of **Worcester County (Mass.) Numismatic Society** was held at the Worcester Historical Society, President Russell Johnson presiding. Alphonse Rasilanus won the attendance prize of a copy of *Reading and Dating Roman Imperial Coins*. Lyle Smith spoke on our annual open house meeting and about twenty-five members expressed interest in exhibiting at it. Lyle had a bag of 1961-D cents which he offered to mem-

bers at sixty cents per roll, the extra ten cents to be turned over to the Club treasury. Arthur Prince had an interesting exhibit of obsolete bank notes and Roman coins. James Ford Clapp, a well-known authority on numismatics and especially on Roman coins, was speaker. His illustrated lecture on Roman coins will long be remembered. His knowledge of Roman coins, and his occasional amusing remarks on the history and antiquity of the ancient Romans, held the interest of everyone. At the conclusion of the lecture, he obliged many by identifying and explaining individual coins. We hope to have the pleasure of hearing him again at a future meeting. — HENRY E. GEBERTH, SR., Rec. On April 6, 1886, Vancouver became British Columbia's newest city. This year Canada's third largest city is celebrating her seventy-fifth birthday. The **Vancouver Numismatic Society** assisted the city in designing a medal for presentation at special occasions during the anniversary year. Mayor A. T. Alsbury

and members of the City Council granted permission for this design to be used on one face of the commemorative medalion to be struck by the Vancouver Numismatic Society. It embraces the coat of arms of Vancouver. In 1901 the Duke of York, the future King George V, visited Vancouver, and the citizens realized the time had come to assume the pomp and regalia they had earned. A youthful English immigrant artist was

appointed to draw a coat of arms in color on an illuminated address to the Duke. Two years later James Blomfield made a permanent painting of his original coat of arms and it was approved by Mayor Thos. F. Neelands. On the arms a fisherman and a lumberman support a shield whose alternate bands of blue and white represent the ocean. Mercury's rod in the center stands for commerce.

While that of the city is uniface, the club's medal has the Society's crest on the reverse. That crest is Vancouver's most dominant landmark, the Lions peaks in the Pacific coast range, together with the Lions Gate Bridge, gateway to Vancouver's land locked harbor. Commissioned to redesign the crest for this medalion, West Coast artist Lawrence Kristmanson achieved a masterpiece of medallion art. Frank Saron of Vancouver Pressed Metal Products supervised the engraving and striking, and his enthusiasm for the design captured the third dimension. Peaks tower over bridge, with all the spectacular splendor that greets the newcomer to Vancouver and draws native sons home again.

This medalion is crown size and struck in oxidized silver for members of the Vancouver Numismatic Society. A few are available to others at a nominal subscription of four dollars to cover the costs involved in designing, engraving, striking. The address of the Secretary, Miss Irene Smith, is P. O. Box 2467, Vancouver 3, B. C. — TOM ROBINSON

Attendance was 125 at the March meeting of **Wichita Coin Club**. Using the title "Let the Buyer Beware Is a Good Policy," Jack Hazelwood told us of counterfeit-ing, casting and altering of coins.

Over a thousand came to the St. Anthony recreation hall in Wichita to exhibit, see and buy numismatic items. Exhibit winners in the various classes were: Best in show, M. V. Younkin; U. S. coins, M. V. Younkin, Bert Jones, and Chester Wilson; ancient coins, J. Eric Engstrom; foreign coins, Wm. Betz, Dale Elliott, and Harold Fortney; paper money, Milton Landrith, Bert Craig; wooden

President Irene A. Sabin presided over the 144th meeting of **Redwood Empire Coin Club** on May 1 at the El Rancho Motel in Santa Rosa. Gold was shown in two jewelry stores; a clothier showed proof sets and silver; half dollars from 1800 to date were in an optometrist shop; a variety store and a beauty shop had various gold, silver and copper coins; and the Book and Bible House showed our main exhibit of sets of coins in plastic holders. We are especially proud of this latter display which drew the attention of many of our citizens. We were honored to have Paul Snedaker, secretary of **Pacific Coast Numismatic Society**, and his wife among the twenty-six attending this good meeting. — GUY L. CHAPMAN, Sec.-Treas.

The twelfth meeting of the **Union County (N. J.) Coin Club** was devoted largely to discussion of the various members' National Coin Week displays. Coins related to the Civil War era were shown at the main branch of the Union Library by Sam Rosenberg and Lee Goodman. Richard Rackin had his collection at Washington School in Union, and Irv Klein displayed at the Community Bank in Linden. Sam Fidel and Charles Schaub had a display in the First National Bank of Roselle, while the Colonial Savings in Roselle Park exhibited Charles Phillips's collection. Don Swayze's exhibit on historical events of the world was shown at the Union County Trust and the Elizabeth Public Library. Typical of Swayze's collection are coins of Mexico under Spanish rule, Republic of Mexico coins, those issued while it was an empire, etc. Each person contributed his dollar toward the celebration of our first anniversary at the May meeting. This Club extends a hearty welcome to anyone in the area who would like to become a member. We believe that anyone who changes a dollar at the corner store and

takes the time to examine his change is a collector and should be a club member. Our meetings are held the last Tuesday evening monthly at the Polish National Home, Linden, New Jersey. — W.C.H.

The **Vancouver Numismatic Society** (formerly Vancouver Coin Club) held its May 4 meeting in the newly enlarged club room of the Kerrisdale Community Centre. The near capacity attendance made the officers speculate that even larger quarters may be necessary soon. Bob Eveleigh spoke of the Club's displays at the Vancouver (B.C.) City Library during National Coin Week, reporting that it drew much attention. We enjoyed a showing of the Medallic Art Company's movie "Let's Take a Trip," which depicts the making of medals from inception of an idea to the finished medals. — NORMAN W. WILLIAMS, Publ. Rep.

The **Triple Cities Coin Club** met May 2 at the Johnson City (N.Y.) Moose auditorium, 87 present. It passed a resolution requesting Congressman Howard W. Robinson and Senator Kenneth B. Keating to support legislation for striking a Civil War commemorative half dollar and selling them directly to collectors by the United States Mint. Robert H. Cornell of the New York State Electric and Gas Corp. spoke to us on "United States Modern Coinages" from the collector's viewpoint. He covered types and varieties of coins, literature, types of organizations, cleaning and grading coins, etc. Collector for over twenty-five years, he is in great demand since his services were offered recently by the Public Service Department of his company. The same evening, Paul C. Christiansen, our treasurer, spoke at a Kiwanis Club dinner in Vestal, N. Y. His subject was his hobby of numismatics, especially colonial currency, and most of the audience stayed for over an hour to ask questions about the hobby and the Triple Cities Coin Club. It was voted to hold the summer months' meetings on the third Tuesdays only. — FRED G. HUNTER, Pres.

The **Los Angeles Coin Club** set an all-time attendance record of 334 members and guests at its 398th meeting on May 5. Fifteen new members were admitted. Miller of the Scientific Investigation Division of the Los Angeles police, who showed colored sound movies and gave an interesting talk on his department's work. While not entirely numismatic, we found it most interesting and informative. Something special is being planned for our July 7 meeting, which will be the Club's four hundredth, in Foresters Hall in Los Angeles. — CAROLYN OLSON, Corr. Sec.

Ray Gallo gave an enlightening talk on collecting coins of Sicily. He traced the Sicilian history from the settlement by the Greeks through control by Arabs, Normans, Swedes, Spaniards and French. So many changes in nationalities produced a variety of coinages, and Ray promised to exhibit his collection soon. We appreciated his talk which indicated the study which he has given this country and its coinage. An auction of member-donated items was held for the benefit of the Red Cross. We had a number of fine exhibits. — JAMES A. BROWN, Sec.-Treas.

annual "Coin Is King Show" at the Arlington Hotel in Binghamton, N. Y., on April 23. With an attendance of over a thousand during the twelve-hour show, excellent exhibits and many notable visitors, we feel that success crowned our efforts. Two numismatists from Endicott took top exhibit awards, Paul Christiansen won first place with his fractional and postage type set, colonial currency and a complete set of large cents, while Robert Hailey took second with a Civil War token display arranged to include cities for each letter of the alphabet, accompanied by geographical commentary. Fred G. Hunter of Binghamton was third with colonial cents and Latin American colonial silver coins, plus representative primitive objects used as money. New Milford, Pa., was represented by Noel Dahlander's fourth-place gold and silver U. S. coin collection, while local Ted Rugala's historical U. S. coinage exhibit won fifth. Included among the visitors, who came from several states and Canada, was U. S. Senator Kenneth B. Keating who spoke briefly to the crowd during his stay. State Senator Warren Anderson, Assemblyman Daniel S. Dickenson and John J. and Mrs. Pittman were among those who enjoyed the show which featured money of the Civil War era and was highlighted by the Ansco-Brady display of original photographs taken during the War. The eighteen dollar bourse was very active. Q. David Bowers handled the 140 lot auction, selling a Sheldon No. 3 chain cent at \$210, an 1877 Indian cent in good condition at \$39, and a very fine 1916-D dime for \$130. Co-chairmen of the show were Fred G. Hunter and Merton Snyder; exhibit chairmen were William Vanco and Philip J. Bunzey; Mrs. Oscar Marbaker was in charge of registration and the sale of wooden nickels. Good publicity in local papers, on radio and TV news broadcasts, and window posters brought the crowd which pleased the Club and brought expressions of surprise from the hotel management. — FRED G. HUNTER, Pres.

Speaker at the April meeting of the **San Diego Numismatic Society** was Jay Anderson, local insurance company agent. He told the 125 in attendance many reasons why coin collectors should have their collections insured, with protection against loss by theft or robbery the most important. Exhibits were as follows: Robert Gee Estell, coins of India and Pakistan; Paul Hamm, dollars of the world, representing 37 countries; Ken Hedges, "micro numismats," being ninety-eight small coins of the world; Francis S. Jones, books on the history and coinage of ancient Greece and Rome; Leonel C. Panosh, sets of foreign coins titled "Foreign Coins Are Just as Beautiful as U. S. Coins"; Robert Sullivan, Canadian cents and nickels. Awards went to Paul Hamm and Ken Hedges. — FRANCIS S. JONES, Publ. Chm.

The **Tuscarawas County (Ohio) Coin Club's** April 24 meeting was held at Brightwood Country Club. Letters were read from Yokahama, Japan, and from Ferraro Vaz of Lisbon, author of a numismatic book in Portuguese. Announcement was made of our National Coin Week displays in fifteen or more locations within the area. Dan Stevens, Mrs. Rita Palmer and Mrs. Grace Bache received a National Coin Week proclamation from Ohio Governor Disalle, and had several pictures taken with him in

his office. We have added many new members during the observance of Coin Week, and the campaign for new members is to be continued. Jerry Rausch of New Philadelphia was appointed general chairman, and "Chuck" Bolus of Canton as auction chairman of our coin show to be held September 23 and 24. Richard Beasley of Dover showed the film "Odd Shaped Coins of the Twentieth Century." —MRS. WILLIAM G. LINGO, Publ. Chm.

A hundred members and guests of **Santa Barbara Coin Club** enjoyed a wonderful talk by **A.N.A.** President O. H. Dodson at our April 17 meeting. He spoke on commemorative coins and on the problem that is "as old as the history of coinage"—counterfeiting. He warned collectors to examine all coins which they purchase, especially if they

are rare and expensive ones, as even reputable dealers are fooled occasionally with counterfeits. Other problems confronting collectors are altered dates and mint marks, and safeguarding collections against theft. He commented on the federal ruling that most foreign gold coins struck since 1933 may not be imported and that those brought in surreptitiously are subject to confiscation. Admiral Dodson closed his fine talk by inviting us to attend the joint **A.N.A./C.N.A.** 1962 convention in Detroit. Exhibits included Mercury dimes by Rick Ford; presidential medals by John Todd; a medal honoring Irish heroes of the war between Mexico and the U.S., by Fred Claveria; early Canadian coins and tokens, by Gwen Sentis; rare gold coins, including Pikes Peak pure gold \$10 of 1860, by Ray Bower —GWEN SENTIS, Sec.

ADVERTISERS PLEASE NOTE ALL FOLLOWING CONDITIONS

All correspondence relating to advertising should be addressed to the Advertising Manager, S. W. Freeman, P. O. Box 591, Newport, Ark. Make all remittances payable to the American Numismatic Association.

No advertising accepted from minors.

Advertising Contracts: These are available, covering periods of three, six and twelve consecutive months for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

References: All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

Available Space Units: Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space (subject to any current limitation) is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Advertising Manager.

Unless under contract, smaller units than one-half page accepted subject to available space in desired issue.

Deadline: Copy must be received by the Advertising Manager by the 7th of the month to insure insertion in the following month's issue.

Illustrations: All cuts to be provided by the advertisers, care being used to see that they do not exceed in measurement the limits of the space unit desired. The Advertising Manager will, when requested, have suitable cuts made from furnished photographs.

We cannot accept mats or stereos.

Miscellaneous: Please furnish copy separately from your letter of transmittal. Advertising copy included in the body of a letter usually has to be retyped for the printer; this should not be required. **Mail Bid Sales listing not acceptable.** It is also the policy of the magazine to limit its advertisements to those of numismatic character.

Preparation of Copy: Advertising copy should be prepared with minute care. Carelessness invites error—something which both advertiser and publisher are anxious to avoid. Use only one side of the sheet. Send originals, not carbon copies. Use only paper of good quality, and not of extremely light weight. All copy must be typed, no handwritten accepted.

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 7th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved.

SPECIAL NOTICE

The expressed preference by so many collectors of LARGE CENTS that we sell the Schwartz and Taylor Collections at Public Auction has impressed us to the point that we are re-scheduling the auction. Arrangements are being made to hold a Public Auction Sale in New York City in late September or early October. All requests for the catalogue will be honored.

CHOICE AND RARE UNITED STATES COINS

The present Empire Coin Company, Inc., is composed of the two previous firms: Bowers Coin Company, Inc. of Binghamton, New York and Empire Coin Company, Inc. of Johnson City, New York. At the present time we have three offices, with the main office located at our modern quarters in the O'Neil Building in Binghamton, New York. With our new enlarged facilities we will offer a complete service to the advanced numismatist.

TRANSITIONAL INDIAN CENTS

There are five different varieties of transitional Indian cents. Four of these five varieties are presented below.

1858 Indian Cent: Obverse design as adopted in 1859, reverse as used on regular issue Flying Eagle cents. Approximately eighty specimens known. Copper-Nickel. Brilliant Proof \$495.00.

1858 Indian Cent: Obverse and reverse exact type of '59. Just as the 1856 Flying Eagle cent is the forerunner of the Flying Eagle series, the 1858 Indian is the first true Indian cent. Compare the mintage of 1500 pieces for the 1856 to about 200 pieces for the 1858 Indian. If the 1858 were to receive the publicity given to the 1856 the 1858 would be a \$4000 to \$5000 coin in Proof condition. Copper-nickel. Brilliant Proof. An excellent value for only \$475.00 . . . and a real "conversation piece" for your Indian cent set, too.

1859 Indian Cent with reverse of '60. 1859 Indian cent with the oak wreath and shield reverse as adopted in 1860. Listed in the 18th edition of the **Standard Catalogue**. Believed by some to be a regular issue released late in 1859. Very rare. An outstanding investment item. Choice Brilliant Uncirculated \$325.00; investor's group of three pieces for only \$875.00.

1863 Indian Cent struck on a thin bronze planchet. 1863 Indian cent, struck on a thin bronze planchet . . . as used from 1864 to the present day. Only a few hundred were struck. These were distributed among Congressmen to secure official approval of the thin bronze cent. A coin with a significant and interesting history. It will be one of the showpieces in your Indian cent set. Brilliant Proof \$325.00; investor's group of three, \$875.00.

THE OFFICIAL MEDAL
OF THE
CIVIL WAR CENTENNIAL—1861-1961

The Coin and Currency Institute, Inc., of New York and California has been appointed sole national distributor of this medal, which commemorates officially the centennial of the Civil War.

It will be available in both bronze and silver about May 31, 1961.

The medal, which is 2½" in size, is being issued under authority of the Civil War Centennial Commission, which was created by Act of Congress. The medal will be struck by the Medallic Art Company from designs and sculptor's models that have been approved by the U. S. Government Fine Arts Commission in Washington, D. C.

As can be seen from the above illustration, the obverse bears the portraits of General Ulysses S. Grant and General Robert E. Lee. The reverse shows the seal of the Civil War Centennial Commission, having as its main theme, a Union and Confederate soldier. The medal will be sold in its own specially made container and will come with a printed, informative leaflet.

In addition to the bronze medal, there will be an issue of pure silver medals, which will be limited to 25,000 serially numbered pieces. The purity of the silver will be greater than .999.

The official prices of the Civil War Centennial Medal are as follows:

The Bronze Medal\$ 4.00

The Pure Silver Medal..... 30.00

(Please note: Because of the limited issue, the silver medals are offered subject to being sold out. Those wishing a silver medal should place their order now. Earlier this year many thousands were disappointed when their orders for silver Inaugural medals were placed too late. Because of the overwhelming national interest in the Civil War, it is expected that the silver medals will be quickly sold out.)

The bronze and silver medals will be available about May 31, 1961, at your local coin and stamp dealer, department store coin counters, hobby shops, etc., or you may write to either our New York or California office.

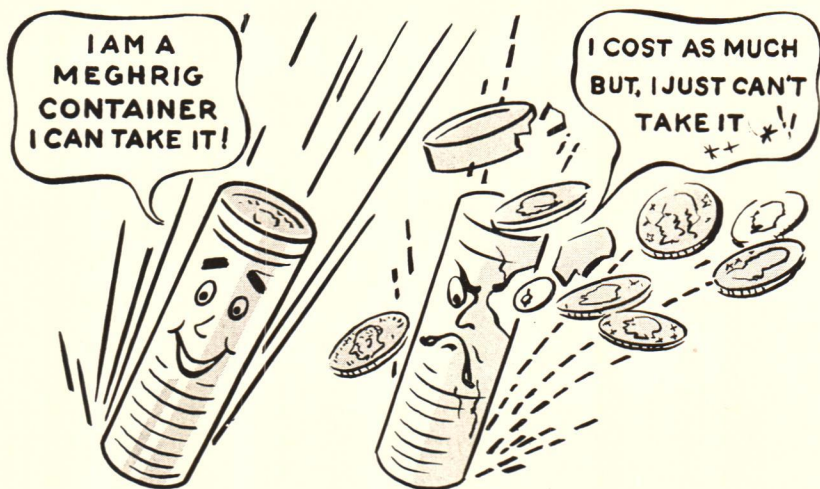

Established dealers wishing to carry this medal for resale should write to us at once for our terms.

The Presidential Art Medal Series

THIS PROGRAM is dedicated to offering a series of finely sculptured, extremely high quality Presidential medals. The first medal of President John F. Kennedy will be followed by one of Abraham Lincoln. This is a continuing program and three or four medals a year will be struck until the series is complete. New medals will be struck thereafter as Presidents are inaugurated. This exclusive offering will be a treasured possession whether you desire only one, or the entire series.

MEDALLIC ART COMPANY, the only American organization devoted exclusively to sculptured bas-relief will strike the entire Presidential series.

MR. RALPH MENCONI was commissioned as the designer and sculptor of this first in a series medal. Mr. Menconi was selected on the basis of his recognized skill in full portrait and high relief work. More information on his work is offered in a leaflet supplied with each medal.

THE MEDAL'S SIZE is slightly larger than a half dollar and $\frac{1}{3}$ thicker to provide correct balance. This medal is the ideal size for display in an album, which will be offered at a later date.

LIMITED PRODUCTION of the precious medals, the high quality found exclusively in Medallie Art Company's work, and the practical size of this medal assure its increasing value. Production of these medals will be strictly limited to the quantities listed below.

TESTIMONIALS

FOR OUR AUCTIONS FROM CONSIGNORS

I received your check today and what a surprise. It was much larger than I had expected or even hoped for. I hope to have another consignment for you some day but probably not until next year. — H. McK.

Thank you for your prompt settlement and check for the proceeds of your recent auction of my consignment.

You have been very helpful to me, in your advice assembling and grouping my coins for auction. You practically hit "on the nose" the amount you informed me the coins would bring.

This has been a most pleasant transaction. — A.W.S.

I am very glad for your check — for the sale of my Indian Heads, and know you have done a splendid job in handling the transaction. Our relations have been on the up and up.

I am glad to recommend your services to anyone. — I.F.C.

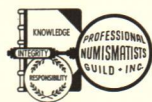

Thank you for the check. You did a wonderful job. — J.L.
(This was a \$60,000 consignment.)

I am in receipt of check and letter in relation to the sale of my coin collection. I wish to state that I feel you received very fine prices in this sale but more important — your word is your bond. I'll be sure to spread the word. — A.W.

I beg to acknowledge with thanks the receipt of your check with carefully itemized statement of the sale of my coins at your auction on Feb. 4th. I am very pleased with the amount you sold my collection for.

If anyone ever talks to me concerning the sale or purchase of rare coins I shall most certainly refer them to you. — C.L.P.

125th Anniversary — 1836-1961

OBVERSE

REVERSE

Shawnee Hills Medalists Proudly Announces the First in a Series of Historical Commemorative Medals!

This salute to one of the most stirring events in the history of a state rich in heritage was designed by Daniel Satterfield of the Shawnee Hills staff, and will be struck about August 1, to advance order only. The obverse shows the historic mission-fortress in the center, with a long rifle and powderhorn, over which the Lone Star Flag has been draped, in the foreground, and bears the legend "The Battle Of The Alamo, 125th Anniversary, 1836-1961." The reverse features a tribute to the "gallant soldiers" who "died to the last man at the Battle of The Alamo, defending their right to freedom and the independence of the Lone Star Republic of Texas." The medal will be struck in bronze and sterling silver, with a few platinum pieces available on special order, and will be a truly outstanding example of medallist art which should rank high in any collection. NOTE: Precious metal pieces will be serially numbered.

THE BRONZE MEDAL . . . \$2.00

THE STERLING SILVER MEDAL . . . \$7.50

Whether you are little or big in the coin world, the Hudgeons E-Z Coin Holder will save you time and money. You simplify all phases of collecting from filing to display . . . and your collection will increase in value with use of the E-Z Seal Holder.

E-Z Seal Holders are precision die cut from heavyweight stock, featuring a specially developed pressure sensitized adhesive that seals tight with only light finger pressure. Your coin is completely enclosed between 2 crystal clear windows and affords complete obverse, reverse and edge viewing and holds firm where placed in holder.

No staples, glue, tools or tape are necessary to enclose all size coins, neat, firm, fast! E-Z SEAL provides for collector or dealer a completely enclosed holder which can be mailed with confident assurance that your coin can not be removed without destroying the holder. Once a coin is enclosed it is literally protected for the life of the holder.

This precision designed holder will protect your rare dates or complete collections against common circulating wear and tear.

E-Z SEAL VISUAL HOLDERS are available in strips of five. Each strip contains 4 holders for coins up to "Quarter Size" and 1 holder in "Half Dollar Size." Each type holds coins of any size up to maximum circumference. 1¢ to 50¢ holders are standard 2" x 2" size.

70% CASH ADVANCE

THAT'S RIGHT!!!! We will advance 70% of the fair retail value of your collection immediately upon receipt. We will then sell your collection at one of our forthcoming auction sales and you will receive your final settlement within 30 days after the sale. Our commission rates are always reasonable.

During the time that your coins are in our possession they are stored in our protected and insured vaults. When you receive your advance check, if for any reason you are not satisfied with the amount of the check, just return it and your coins will be returned postpaid.

In many cases our advance will be almost equal to others' offer of outright purchase.

Our auction sale, which was originally scheduled for the Spring of this year, has been rescheduled for the Fall due to the very recent acquisition of an outstanding collection of U. S. and Canadian coins. This combined auction sale catalogue will be available in the Fall. If you are not currently on our mailing list, just drop us a postcard with your full name and address and we will place your name on our catalogue mailing list.

REMEMBER — It is not too late to have your collection included in this outstanding auction sale.

We are always in need of desirable numismatic material and will be happy to travel anywhere in the world to acquire it — either for auction or for outright purchase provided the value of the material warrants it.

NO COLLECTION IS TOO LARGE — We will furnish bank references upon request.

We have just obtained another lot of Trade Dollars. Now is the time to obtain these while the bag and roll boys are buying and selling amongst themselves. I was told the "boys" are trying to get their Congressmen to ask the Mint to strike 1962 coins so they could have them even before the Federal Reserve could get them.

reprinted and bound in 4 Big, Beautiful Volumes

AT YOUR HOBBY DEALER **\$375** each

Experts selected the best articles written by authorities on numismatics and published in the Official Publication of the American Numismatic Association over a period of 72 years. These selections, profusely illustrated and grouped in four books, give you a library of numismatic knowledge covering virtually every subject. The first book, with a total of 308 pages, contains articles on coin collecting in general, on U.S. coinage, and on specific U.S. coins. The second book (320 pp) deals with U.S. paper money and miscellaneous. You'll find very interesting reading about ancient and medieval coins in volume 3. The vast field of modern foreign currency is covered in volume 4. Here is a "library" every numismatist will want. See your dealer.

NUMISMATIC REVIEW, Vol. II, Number 3

By this time the third issue of the *Numismatic Review* should be in the hands of our regular subscribers. As noted last month, there is a wide selection of coins of the types used in the American Colonies in all denominations. There will also be an exceptionally fine list of Roman Republican Denarii, all catalogued according to Sydenham. We feel that this list is one of the most complete collections of Roman Republican Silver offered in this country in some time. In addition there will be other material from the stock purchased by our representative on his recent trip to Europe.

A few examples of Coins of the type used by our Colonial Forefathers are found below.

"SO-CALLED DOLLARS: Guide Book and Standard Catalog"

By **H. E. HIBLER** and **C. V. KAPPEN**

(Copyright 1961 by Harold E. Hibler)

Most Collectors of this material, along with many Dealers, know of efforts initiated some time ago to revise and extend the late Richard D. Kenney's "So-Called Dollars."

It now is most gratifying to announce collaboration by Prof. Charles V. Kappen, San Jose, Calif. — with publication target date of December 31, 1961.

Book will be divided into three (3) Parts:

- Part I — Commemorative and Exposition Medals of National Interest.
- Part II — Commemorative and Exposition Medals of Localized Interest.
- Part III — Monetary and Miscellaneous Issues.

All subject to the following:

- 1. United States ONLY.
- 2. Min. Diameter — Size 21 (1½ in. or 33 mm.).
- 3. Max. Diameter — Size 28 (1¾ in. or 45 mm.); BUT Bryan Dollars will be listed.
- 4. No holed or looped material UNLESS struck plain also.
- 5. No purely Presidential or Political medals.
- 6. No School, College or Athletic medals; no Coin Club or U. S. Armed Forces medals.
- 7. No Calendar or Store Cards; No Trade Tokens or Emergency Money.
- 8. No Unique items (except, perhaps, in Appendix).

Some of material excluded above is too abundant to permit of proper consideration, while other subjects have been covered long since by better qualified authorities. We will deal only with Commemorative, Exposition, Monetary and kindred medals of approximate silver dollar size.

Mr. Kenney listed a total of but 33 issues (20 in Part I, 13 in Part II) and 181 medals. THIS REVISION ALREADY CONTEMPLATES 150 ISSUES AND ABOUT 500 MEDALS.

Our objective is to publish the best and most comprehensive reference work possible. Background stories, requiring years of research, will accompany most issues appearing in Parts I and III. Photos, of course, are a must; book will be cloth bound and well indexed, including a cross-index with Kenney.

AN INVITATION: If you would like to cooperate in this endeavor, you are welcome to submit list of your medals — NOT LISTED IN KENNEY — which meet all of the above conditions. We need date, brief description, metal and size, e.g. "1906 — Pikes Peak, Bronze, Size 22." PLEASE DO NOT SEND MEDALS AT THIS TIME. ALL LISTS WILL BE ACKNOWLEDGED.

TO ANY AND ALL

Real Students of Numismatology

If the roll and bag craze has you dizzy and a bit weary, there is a pleasant escape for you: take an active interest in U. S. paper currency, particularly the "old," series. These king-size notes do not come in rolls, or even bundles. There are no large-and-small-zero varieties, no die "shifts," no date re-cuts.

We will attend the ANA Convention in Atlanta. Will bring *material* for filling gaps in type sets, in signature and seal combinations, even a few rare notes. The italicized word, *material*, means, paper money in the superb Philpot condition: perfect quality, seldom offered elsewhere, anymore. True, the prices are rather dear, but day by day these notes become harder to come by. In our humble opinion, these will never be cheaper—particularly in our 25¢ dollars.

We plan to bring to Atlanta all the different types of currency, issued in every denomination, \$1 to \$100. The common series, seals, and signatures will run lower than Friedberg's catalogue. The rarer items will be about the same as Bob's prices. While the great rarities will naturally be listed above catalogue.

Among the scarcer and very rare items to be offered (the majority a singleton) are these Friedberg numbers: 1, 6, 11, 19, 42, 43, 86, 123, 125, 127, 139, 150, 151, 152, 167, 221, 231, 244, 245, 247, 254, 265, 269, 276, 283, 305, 323, 332, 347, 353, 359, 366, 372, 376, 377, 378, (In national bank currency we have many states represented in all charter eras, in all denominations.) 709, 735, 741, 781, 806, 815, 822-a, 829, 831.

So, work on your want list and bring it with you to Atlanta. Those of you who have purchased my notes in the past are familiar with the Philpott quality—yes, satisfied and proud. If you have no notes purchased from me, ask to see material others have acquired from my holdings. You will be fascinated.

The "popularity cycle" for currency is now due momentarily. Dealers have small stocks, generally of poor quality. The advice of a fellow, who has studied and collected more U. S. paper currency than any *living* human, is: use some of the money you are putting in bags of 1960 and 1961 Lincoln cents to buy high quality, old size, U. S. currency.

Useful for cleaning all kinds of coins, but particularly adapted to cleaning coins of copper or nickel.

**EASY TO USE AND ECONOMICAL!
FAST ACTION — IT ACTUALLY
CLEANS IN SECONDS!**

Does not add shine, but brings out natural color, including original brilliance if it is still there under tarnish or coating. Dull or dark uncirculated coins become brilliant uncirculated coins in seconds.

This result of years of experiment can be safely used on valuable coins to improve their appearance and increase their value.

On sale in many leading stores in 4-oz. bottles, with full directions, at \$1.00.

If your dealer does not yet have it, send us \$1.00 for 3-oz. bottle (enough to clean hundreds of coins) carefully packed and postpaid to any address in the United States or Canada.

HOW I GRADE LINCOLN CENTS

Seems like this is the big thing, and even some Dealers differ on this. Coins that have nicks, digs, scratches or coins that are badly worn, or that have bad defects, green, etc., are not collectable coins. I don't want them. I would if I could sell them, but I can't. So don't — Please — don't send them.

POOR, FAIR, ABOUT GOOD — I don't buy or want them; spend them.

GOOD — Worn coins, but still a collectable coin. Good date, mint mark, all writing clear, could show some wheat lines.

VERY GOOD — One-half or more wheat lines, one-half ear, etc. Must have one-half wheat.

FINE — Full wheat lines, nice rim, full hole in ear, etc.

VERY FINE — Sharp coin, sharp wheat, sharp ear, detail sharp, nice coin.

EXTREMELY FINE — Very little or no sign of wear, a well struck coin.

The easy way to grade coins — ask yourself, "Would I buy this coin at this grade for MY set?" One other thing, most coins have two sides, and the coin is only as good as its worst side. This means if one side is FINE and the other side is GOOD, then the coin must be graded as GOOD.
